To whom it may concern:

Essential Enterprise Solutions has been providing help desk support, depot repair services and swap-out maintenance for Volumatic's, US-field deployed units on their Multi-Count, Count Easy and CCI register products since November, 2012.

We consider Volumatic an important strategic partner of ours. Their exciting line of cash handling and security products fits nicely into Essential's existing portfolio of Retail devices serviced.

"Early on in the engagement, we knew we were in for a successful partnership. When you combine well engineered products, meticulous documentation and Volumatic's willingness to travel to the states to conduct numerous, hands-on training sessions for our Technical Staff, we knew we were starting off on the right foot," states Essential's General Manager, Craig Heck.

Combined with this professionalism, the Volumatic team is always a pleasure to deal with. We look forward to continuing to grow our business together and are confident that Volumatic will be with us each step of the way.

Essential looks forward to continuing the partnership for many years to come.
